# Diversity

## We're working toward a web that includes everyone

Google is committed to bringing together people—in our workforce, our industry, and on the web—who have a broad range of attributes, experiences, and points of view. We believe our differences make us stronger, and produce better, more innovative work.

We're working to build a more diverse supplier network. [Find out how.](#)

### Diversity at Google

From our benefits to our Employee Resource Groups to our company culture, find out what we do in the name of making Google a great and inclusive place

### Diversity on the web

Core to our mission is equal access to information, so we're committed to helping users of all backgrounds and experiences make the most of the

### Diversity for the future

There's not enough diversity in Computer Science today. Learn about our efforts to promote CS education and encourage more underrepresented

## Diversity

Diversity resources: [DiversityInPython](#).

## Diversity Statement

The Python Software Foundation and the global Python community welcome and encourage participation by everyone. Our community is based on mutual respect, tolerance, and encouragement, and we are working to help each other live up to these principles. We want our community to be more diverse: whoever you are, and whatever your background, we welcome you.

**IT is not just a  
Boys' thing**

A diverse community where people treat each other with respect has more potential contributors and more sources for ideas.

The logo for PyLadies is displayed in a large, stylized, red font. The word "pyladies" is written in a lowercase, italicized, and slightly slanted font, with a black outline around each letter.

20XX

Singapore, a diverse  
Tech Community

for that to happen  
**we must start today**

thank you!
